WHOLESALE NURSERYMEN - DIVISION OF SEABROOK FARM

To Our Friends

Spring 1947

Gentlemen:

Everywhere today the accent is on reconstruction, and we know that we, at Koster Nursery, are not alone in our efforts to rebuild our stocks, to repair the ravages of war and to renew contacts with friends, both old and new. Many of you have written to us in the past few months, and it is of necessity that our replies have been generally negative. Since this does not present a true or complete picture of our situation, we thought that it might interest you to know what we are doing and of our plans for the future.

At Koster Nursery there are perhaps unrivaled opportunities for plant propagation. The finest equipment and the most skilled men are available, and we are concentrating therefore on the production of first-class lining-out stock of the most popular varieties of Evergreens. At the present time we have made nearly 250,000 cuttings of all types of Taxus, Junipers, Thujas and Retinosporas, and we hope to follow this with a further batch of the same size.

We have grafted 36,000 Hybrid Rhododendrons, and everyone who has seen them agrees that we have never grown a finer lot. It has been our practice in the past to grow these on into two-year plants, but this season, we have decided to offer some of these named Hybrids direct from the cool houses, hardened and ready for planting out.

Given below is a complete list of all plants we have available now. We have not listed any plants which we shall be unable to supply, but in order to avoid disappointment, we do suggest that you write us at once if there is any item which interests you.

We have decided to discontinue dip treatment of balled and burlapped items for shipment outside the Japanese Beetle Area.

Yours very truly,
KOSTER NURSERY,
James S. Wells, Manager.

Terms and Conditions of Sale

ORDERS: State size desired and give specific shipping instructions—whether by freight, express or motor, date of delivery and to whom notice of delivery and invoice are to be sent. If no shipping instructions are included, we will ship by best carriage. If no date is specified, we will ship at once or as soon as weather or conditions of plants allow.

LINING-OUT STOCK: Lining-out material is shipped bare root with the roots puddled and protected with damp moss. Azaleas and Rhododendrons having a natural ball are protected with paper.

SPECIMEN PLANTS: All specimen stock is shipped balled and burlapped except small Boxwood and Lilacs. These items are mossed.

TRANSPORTATION: All shipments are adequately packed and shipped over the Central New Jersey or Pennsylvania Railroads, or by motor freight.

PRICES: We quote 1 to 50 plants of ONE KIND at the 10 rate, 50 to 300 at the 100 rate and over 300 at the 1000 rate. Packing at cost of material.

TERMS: Orders from people unknown to us will be shipped

C.O.D. unless arrangements for credit are made in advance. Regular accounts are due net cash 30 days from date of invoice.

GUARANTEE: Our stock is true to name and is of size and quality represented. We give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any nursery stock, seeds, bulbs we sell, and we will not in any way be responsible for the crop. No liability is assumed for failure or delay in filling orders due to strikes, accidents, crop failures or shortages and other causes beyond control of seller.

INSPECTION: All plants shipped OUTSIDE the Japanese Beetle Quarantine ARE accompanied with a Japanese Beetle Certificate. Shipments inside the Japanese Beetle Quarantine Zone will NOT have a Japanese Beetle Certificate unless requested. All shipments ARE accompanied with a New Jersey Certificate of Health.

CLAIMS: If stock is unsatisfactory claim should be made promptly upon receipt of goods. No claims will be allowed after 10 days from receipt of goods. If purchaser does not accept goods on above conditions they must be returned at once.
